### Tutoring Experience

I've spent the last ten years dedicated to teaching IB Psychology and Business Management to students across various international schools in the USA and Europe. My experience has been enriched by the diversity of students I've taught, each bringing their unique perspective and challenges. I believe in fostering a collaborative learning environment where students feel empowered to explore and question. My sessions are tailored to individual learning styles, ensuring that each student receives the support they need to excel. Over the years, I've helped students not only master their IB subjects but also develop the critical thinking and analytical skills that are crucial for success in higher education and beyond. Many of my students have gone on to attend top universities, and I am particularly proud of the progress they make in their understanding and application of psychological and business theories.
